Asplundh Continues Safe Route Review Process in Salisbury

Expert Tree Company Schedule for Week of October 26-30

Salisbury, NC _October 26, 2009 – The Asplundh Tree Expert Company continues its safe route review process for the Fiber to the Home project in Salisbury. Asplundh is in the process of reviewing city streets, utility poles, and vegetation outgrowth to ensure that the current right of way maintenance offers maximum safety for fiber product installers. Right-of-way maintenance includes potential snipping of branches that pose a potential hazard for fiber service installers during placement of fiber products.

From October 26 through October 30, Asplundh will be working within a two-mile radius of the following cross streets:

Old Wilkesboro Road and Partee Street
Confederate Avenue and Clubhouse Drive
Ellis Street and Monroe Street

Barry King, the City of Salisbury's Fiber to the Home Services Delivery Manager, shares that in many instances, "very little or no trimming to tree branches may be needed. The intent is to provide enough right-of-way clearing that ensures the protection of our personnel during placement of the fiber product. Required work will include clearance of over-growth that inhibits adequate installation. The well-being of our personnel is of greatest significance." King offers that citizens with any questions or concerns should feel free to contact him by calling 704-216-7567.

The City of Salisbury is an equal opportunity employer with over 180 different job classifications and 400 full time positions.
